Young Man! Start Right

If you are soon to be married, make up your mind to begin the new life in a home of your own.

If you were recently married, don't contribute to a landlord a single year. Acquire a home, or if not a home, then a lot. You can soon build and then you will be paying rent to yourself.

If you have been a family man for a number of years you no doubt realize by this time the need of a home.

No wage-earner with a family can afford to live in a home belonging to somebody else, if he gives due consideration to the economy or thrift which prompts capitalists to build homes to rent.

Let us show you the prettiest home section in El Paso.
